Swearing In of New Board Members

General Counsel Brenda Allen administered the oath to Lorraine Williams and David Muse, new Board members, who were unable to attend the November 14, 2005, meeting.

Amendment to November 14, 2005, Minutes

Motion made by Ms. Thompson, seconded by Mr. Stone, to amend the minutes of the November 14, 2005, EPSB meeting as follows:

Order 2005 – 106 should read: *Motion made by Ms. Thompson, seconded by Dr. Cibulka, to include an October Board meeting each year to **include a discussion of the budget and/or legislative agenda.***

Vote: Unanimous

Approval of November 14, 2005, Minutes as Amended

Dr. Evans expressed concern about the accreditation of Midway College and about accreditation of all institutions. Accreditation should be the same for all institutions, and

accreditation should reflect the actual language of the regulations. Dr. Evans suggested that the Board review the language of the regulations. Dr. Rogers suggested adding this topic to the Annual Retreat agenda.

Motion made by Mr. Anderson, seconded by Ms. Gregory, to approve the minutes of the November 14, 2005, EPSB meeting as amended.

Vote: Yes – 14; Recuse – 1 (*Dr. Evans*)

Report of the Executive Director and Staff

In his report Dr. Phillip Rogers:

- welcomed new Board members, Lorraine Williams and David Muse;
- asked Wilson Stone to share with the Board an update on Linda Livers who was absent due to illness and under her doctor's advisement; and
- reviewed the Board folders and the information contained therein.

KDE Update

Mr. Steve Schenck, sitting in for Commissioner Gene Wilhoit, KDE, shared some information with the Board. During the spring semester of 2007, students will be taking the revised CATS, which includes a new core content for assessment, 4.0, and an added dimension called "Depth of Knowledge." Mr. Schenck anticipated that the Kentucky Board of Education (KBE) would approve the new high-school graduation requirements at its next month's meeting. These two developments will greatly impact what teachers will have to know to teach their students. Mr. Schenck suggested that Starr Lewis, KDE, give a presentation to the Board at a future date on these two developments.

CPE Update

There was no Council on Post Secondary Education (CPE) update since Dr. Applegate was absent.

Amendment to Alice Lloyd College's Praxis Pass Rates

Mr. Wendell Cave reported to the Board regarding a correction needed to Alice Lloyd College's Praxis pass rates. Institutions that have less than an 80 percent pass rate on the Praxis tests must submit a rejoinder to EPSB. Mr. Cave reported that an error had been made last year in reporting Alice Lloyd College's pass rate. The institution actually had a 100 percent pass rate on its secondary level Principles of Learning and Teaching (Praxis). The institution has been notified of the error. Corrective action has been taken, and a new procedure will be in effect next year. That procedure will involve review of data by another person before action is taken.

Admissions Data Update

Dr. Marilyn Troupe, Director of the Division of Educator Preparation, and Dr. Melissa Miracle gave a presentation to the Board regarding admission and exit data from educator preparation programs. This being the second year to present admission data, Dr. Troupe

Agenda Book

related that such reports would be made on an annual basis. A more detailed listing of content areas and all institutions would be presented at the Board's annual retreat.

The admission/exit data focused on five shortage areas: (1) science/mathematics, (2) foreign language, (3) special education, (4) middle school science, and (5) middle school mathematics. Dr. Troupe cautioned the Board not to correlate the admission data with the exit data. That is, just because one person entered a preparation program did not mean that person exited the same program.

Dr. Miracle has been working with the Division of Educator Preparation to train the program consultants on how to access the database of district-entered information. Elizabeth Springate, consultant, is the lead person in managing the database. Dr. Miracle reported that the first two years of data reporting (2001-2002 and 2002-2003) were not as "clean" as she wished. There were some technical difficulties in transferring information, especially admission data, from Excel spreadsheets into the database. However, since the last two years of data reporting (2003-2004 and 2004-2005) have used data entered into the EPSB database, the data is more clean. The trend for clean or cleaner data should continue the longer the database system is used.

In reviewing the admission data with the Board, Dr. Miracle pointed out that more students have enrolled in the special education programs, whereas the admission numbers for science/mathematics, foreign language, middle school science, and middle school mathematics have leveled. When broken down in three major certification areas, the data reveals that more students have sought certification in mathematics, Spanish, and learning behavior disorders (LBD). Certification in foreign language may increase should graduation requirements be amended; however, other than French, Latin, German, and Spanish, not many schools are offering classes in other languages. For instance, the University of Kentucky is the only institution that offers classes in Russian as part of its curriculum. Some Jefferson County schools offer Chinese in their foreign language curriculum.

The exit data shows trends similar to those of the admission data. More students have exited special education preparation programs; and while there have been increases in the certification areas of middle school mathematics and in science/mathematics in general, the numbers are still low when compared to the special education exit data. In the science/mathematics exit certification areas, mathematics and biology have the greatest number of students; in foreign language, Spanish and French; and in special education, learning behavior disorders (LBD).

Dr. Evans recommended that the Admission Data Trend Report be sent to all institutions. Dr. Cibulka inquired whether data was available that would indicate what would be the critical shortage areas in the near future, based on attrition and on the current shortage trends. Dr. Troupe related that she did not have that information readily available but would be able to present more information on critical shortage areas at the annual retreat. Wendell Cave noted that the growth in alternative certification programs paralleled the exit data.

LEAD Report Update

Mike Carr, Director of Division of Certification, presented the local educator assignment data (LEAD) report update. This report has also been submitted to Gene Wilhoit, Commissioner, Kentucky Department of Education (KDE). Mr. Carr related that EPSB is pleased with the information that the report indicates. He reminded the Board that EPSB had extended the districts' reporting date to the Commissioner to November 15, which gave

Agenda Book

districts more time to submit their data. Mr. Carr pointed out the two sets of statistics, the number of assignments and the number of people, with the number of people being the more important statistic. Except for two status categories—“out of field” and “out of grade range”—all other categories show a decrease in the numbers of noncompliers. The Commissioner gives districts until January 31 to correct any of the problems. This year there will be a spring LEAD report, due by the end of February; and the highly qualified (HQ) report will be based on the data collected this spring. Mr. Carr recognized Cindy Godsey, LEAD coordinator, who has been with EPSB for nine months and who has been doing an excellent job.

Mr. Carr explained some of the status items on the report. For example, “never certified” is generally the largest category because it is made up of vacant positions—that is, posted positions that have not been filled. In such cases the districts generally have to staff with emergency certified people.

Mr. Stone inquired whether SEEK funds were withheld based on the LEAD report, and Mr. Carr responded that has happened in the past. Last year he knew of seven or eight positions the LEAD report had affected in such way. Ms. Williams asked if there were particular areas in the state where “never certified” is more of a problem. Larger urban areas, of course, have fewer problems; but certain schools that have a high population of special education students do experience this problem more often. Statewide, however, there will always be some problems with “never certified.” Dr. Rogers pointed out that the statistics show 99.77 percent of all teachers are “cleared”; that is, they are teaching in their field and grade range and are duly certified.

Revision to Certificate Design

Mr. Carr pointed out to the Board the current design of certificates. On the back of each certificate is a long list of instructions and applicable regulations about how to renew the certificate. The printing of certificates and the amendments to regulations regarding renewal of certificates often do not coincide. That is, an amended regulation may not be current with what is printed on the back of the certificate; whereas renewal codes can be changed more easily on the fronts of certificates. Janet Banta, former director of the division, and Cindy Godsey suggested that the outdated instructions/regulations be replaced with the Code of Ethics. That way, each certificate holder would have his or her copy of the Code of Ethics. A reference to the Code of Ethics would be added to the front of the certificate. Since the division would need to reprint certificate forms this spring, then making this change now would be cost-effective. Board members who commented about the redesign proposal agreed the redesign was a good idea.

Redesign of Principal Preparation Program

Dr. Troupe, Mr. Brown, and Dr. Jim Rinehart, University of Kentucky and also with the Commonwealth Collaborative for School Leadership Programs (CCSLP), presented the Board with an update on the principal preparation program redesign. Dr. Rogers directed the Board to two documents within their folders: “Leading Change” and “Items for Consideration.” Mr. Brown recognized the work of the various agencies that have contributed to the task of redesigning the principal preparation program. Not just a Kentucky initiative, restructuring the principal preparation program has gained national focus. The Wallace Foundation, co-drafter of the CCSLP initiative, has decided to use Kentucky’s redesigned program as a case study. Last April at the CCSLP conference, chairs and deans

Agenda Book

met and discussed important points, those in the “Leading Change” and “Items for Consideration” documents, that the universities believed all Kentucky principals needed. The committees for the Master’s Degree Program and the Principal Preparation Redesign Program share many of the same ideas and recommendations, which means these two programs should work hand-in-hand.

Dr. Rinehart recognized Dr. Rosa Weaver as a co-convenor of the CCSLP principal preparation program. Reiterating that the Master’s Degree Program Committee shared similar redesign recommendations, he also related that he was aware the ISLLC standards were undergoing modifications—basic six standards remaining the same but with more specifics regarding performance outcomes. Dr. Rinehart recognized Dr. Phillip Rogers’ continuing support of the redesign effort. In most reports from schools that are performing well, one reason for that good performance has been leadership—that is, effective leadership. The major focus of the redesign program is, therefore, to better prepare those individuals who plan to be out in the field. Dr. Rinehart recognized Debbie Daniels’ help in organizing these efforts.

The “Leading Change” document was initially drafted last April and then revised during that summer. Feedback for the “Leading Change” document consisted of: (1) open-ended elements that would allow institutions and districts to be more involved in developing preparation programs and (2) funding issues. The “Items for Consideration” is a refinement of “Leading Change.” One theme surfaces, and that theme is the need for more district involvement in the admission process, program and internship design, program delivery, and program review. Dr. Rinehart suggested that the deans and provosts be brought together to discuss the redesign program. (For example, the redesign program may affect class sizes in the institutions.) Also, at a national meeting planned this summer, to which all state leadership people will be invited to attend, the principal redesign program will be on the agenda.

Dr. Troupe informed new Board members about the Board’s appointment of the Master’s Review Committee (a cross-section of principals, teachers, higher education members, deans, KDE representatives) in September 2005. This committee was charged with reviewing current master’s degree programs and making recommendations about how they could be modified to aid in improving student learning. The principal program redesign piggybacks on the work of the Master’s Review Committee, whose report is due to the Board at the May meeting.

Two Board members had questions for the presenters. First, Ms. Williams asked whether the proposed changes in the master’s degree program for rank change were correlated to student achievement. Dr. Troupe responded affirmatively. Second, Dr. Cibulka asked Dr. Rinehart to address two areas: (1) the pros and cons for Element 6 (Masters/Post-Masters) in the “Leading Change” document and (2) the resource implications involved. If institutions become more selective about admissions into these programs, then class sizes—and funds—would be affected. On the other hand, selective admissions should give better educated and better qualified school leaders.

Report on New National Board Certified Teachers

Mr. Brown, Ms. Cindy Owen, and Ms. Lynn Hines next presented to the Board a report on new National Board Certified Teachers (NBCTS). Mr. Brown recognized Ms. Hines’ hard work in pushing the NBCTS program and getting teachers involved in the program. In fact,

Agenda Book

Kentucky is ahead of the national average in the number of NBCTS; and due to Ms. Hines' work receives much-needed federal funds to support the program.

Ms. Hines directed the Board to documents within their folders, pointing out that Kentucky now has 900 NBCTS in comparison to only one NBCT in 1995—Ms. Hines herself. Should the number of Kentucky NBCTS continue to increase at such rate, then the state would have over 8,100 NBCTS in 2015, or one-fourth of all Kentucky teachers. Kentucky is moving forward and should have no problem having at least one NBCT in each school. In fact, Ms. Hines said she encourages principals to strive for three to four NBCTS in each school.

For the 04-05 cycle, statistics reveal that 166 candidates were certified in November 2005. Of that number, 83 were first-time candidates; 83, second- or third-year candidates; and 9, third-year candidates, which reflects a 50 percent pass rate for third-year candidates. Since certification is a one- to three-year process, Ms. Hines related that she encourages those who may not certify one year to continue trying to certify. While Kentucky's certificate rate of 43 percent is higher than the national rate (38 percent), that rate is lower than it has been in previous years. Ms. Hines related that the downward trend is being investigated and corrective actions such as more workshops are being taken to increase the number of NBCTS. For the 05-06 cycle, 494 candidates have currently applied for National Board certification. Sixty-seven of these are advanced candidates (second or third year). She believed that number would increase to 550 candidates by the close of the application cycle (January 31, 2006). Ms. Hines reported that each first-year candidate in the 05-06 cycle received a federal subsidy of \$1,150, which pays half of the fees for certification. (Those fees will increase to \$2,500 this next year.) Nineteen candidates have already applied for the 06-07 cycle, and Ms. Hines related that she receives 10 to 15 inquiries each day about application for the 06-07 cycle. Therefore, the number of candidates for the 06-07 cycle is expected to increase. Federal subsidy funds have been requested for the 06-07 cycle; and should Kentucky receive some of the overage funds from the 05-06 cycle, then there should be enough funds to pay at least half (\$1,150) of the candidate's fees for National Board certification.

Ms. Williams inquired whether the application extension window affected the number of applicants and whether preparation for National Board certification, especially the writing component, was included in teacher preparation programs. Not until the next year will Ms. Hines know whether the application extension has increased or decreased the number of candidates; however, the spring application period, allowing teachers to do more work in the summer months, seemed to be more palatable. Ms. Presley inquired about reimbursement for candidates' out-of-pocket expenses. Seventy-five percent of such expenses are paid from the general teacher fund. Dr. Cibulka inquired whether NBCTS were given leadership opportunities. Ms. Hines related that a survey was being conducted to determine placement of NBCTS, and early results of that survey revealed that many were now in leadership positions—instructional supervisors, principals, university-level instructors. Dr. Cibulka requested that the results of that survey be shared with the Board. Those results should be available by either the March or May meeting. Mr. Lin reported that some states such as Georgia have used differentiated compensation to attract more NBCTS to low-performing schools. Kentucky has encouraged NBCTS in eastern Kentucky since more federal funds, Project Appalachia, have been received for that geographic area.

Agenda Book

Following Ms. Hines' presentation, Dr. Rogers presented her with a plaque honoring her achievements (Kentucky's first NBCT in 1995 and Kentucky's first recertified NBCT in 2005), work, energy, and vision toward the NBCT program.

Report of the Chair

In his report Chair Stull:

- appointed the following people to the EPSB Reading Committee for the three-year period of January 2006 – January 2009: Dr. Lesia Lennex (replaces Dr. Sharon Sullivan), Dr. Cynthia Mason (replaces Dr. Kim Naugle), Dr. Doug Smith (replaces Dr. George Patmor), and Ms. Nancy Reed (replaces Ms. Sarah Sweat);
- appointed the following people to the Continuous Assessment Review Committee (CARC) for the two-year period of January 2006 – January 2008: Dr. Paul Erickson (replaces Dr. Paul Wirtz), Dr. Lora Bailey (replaces Ms. Wanda Griffith), Dr. Lenore Kinne (replaces Dr. Ken Carter), Ms. Angela Cain (replaces Ms. Carlette Kiser), and Ms. Pam Rogers (replaces Ms. Phyllis Shuttleworth);
- reappointed the following people to the Continuous Assessment Review Committee (CARC) for the two-year period of January 2006 – January 2008: Dr. Renee Campoy and Dr. Bonnie Banker; and
- appointed Kristin Gregory to replace Joe Welch on the Evaluation Committee of the Executive Director. Chair Stull asked the Evaluation Committee to meet after the Board meeting to determine a date in January to meet.

Dr. Troupe recognized and introduced Ms. Freda Simpson, who is new to her division and who serves as Administrative Specialist III.

Ms. Thompson related that the Report of the Executive Director included several critical issues; and while the Board folders contained good summaries of that information, having that information beforehand, prior to the meeting and in the Agenda Book, would give Board members more time to process the information. Dr. Rogers responded that efforts will be made to accommodate the Board's request.

Information Items

A. 16 KAR 7:020: Kentucky Principal Internship Program (KPIP), Notice of Intent

Mr. Brown and Ms. Allen presented to the Board proposed regulation amendments for the Kentucky Principal Internship Program (KPIP). Both educators and legislators have expressed the need to update KPIP to meet the evolving needs of Kentucky schools. EPSB staff have collaborated with the Commonwealth Collaborative for School Leadership Programs (CCSLP), the Kentucky Advisory Council for Internship (KACI), the Council for Postsecondary Education (CPE), the Kentucky Department of Education (KDE), local school districts, and various professional organizations to develop proposed improvements to KPIP. At the Board's November 2005 meeting, Mr. Brown shared information outlining some of the discussion topics related to changes to KPIP.

As EPSB's collaborative work continues, the staff have identified immediate changes that need to be made to KPIP. Proposed amendments to 16 KAR 7:020 include:

Agenda Book

1. inclusion of an appeals process for KPIP;
2. new requirements for principal mentors (must have served as a principal at least three of the last five years);
3. an increase in the supplement to principal mentors (not to exceed \$1,400);
4. inclusion of language stating that payments are contingent on adequate funding under the Commonwealth's biennial budget;
5. a requirement defining the observation of KPIP committee members to be three hours' duration;
6. inclusion of language allowing for online submission of work completed by the KPIP committee;
7. inclusion of language incorporating the KPIP Handbook by reference; and
8. revision of language removing the responsibility of KPIP from KDE to EPSB.

An action item for final Board approval will be presented at the March meeting.

B. 16 KAR 2:060, School Nurse Certification, Notice of Intent

Dr. Troupe, Ms. Allen, Karen Erwin, Education School Nurse Consultant, KDE, and Dr. Sylvia Gaiko, Associate Dean, College of Health and Human Services, Western Kentucky University, with assistants Drs. Beverly Siegrist and Susan Jones, professors, Department of Nursing, presented to the Board proposed amendments to 16 KAR 2:060, School Nurse. The regulation has not been amended since originally adopted in 1980. Practicing school nurses seeking certification, but having difficulty meeting the requirements as written, recommended revisions to the governing regulation. According to the original regulation, degreed nurses, or those persons having attained a bachelor's degree or a master's degree in nursing, would have to complete the school nurse preparation program, which would require candidates to duplicate coursework.

EPSB staff worked with the Kentucky School Nurse Association (KSNA), the Kentucky Board of Nursing (KBN), the Kentucky Department of Education (KDE), the Department of Public Health (DPH), and Western Kentucky University's (WKU) Department of Nursing to propose amendments to the regulation. At KSNA's general session of 2005, EPSB staff advised that the proposed amendments to the regulation would not ensure that districts would hire certified nurses.

Proposed amendments to the regulation would allow for three levels of certificates: (1) provisional, (2) professional, and (3) advanced school nurse with three options. Each level would have renewal requirements.

Dr. Troupe pointed out a revision to the Staff Note. Under the Background heading, paragraph two, sentence two, "KSNA" should be revised to read **EPSB**. That is, EPSB staff met with KBN to review the regulation. School Nurse Consultant Karen Erwin (KDE) fielded several questions from the Board.

Ms. Thompson asked for an explanation of "related field" and believed that experience in school nursing should be the basis for certificate renewal. The Board also noted similarities between requirements for the professional certificate and Option 1 under the advanced school nurse certificate and requested clarification of the requirements at the next Board meeting.

An action item for final Board approval will be presented at the March meeting.

C. 16 KAR 5:010, Standards for Accreditation of Educator Preparation Units and Approval of Programs, Notice of Intent

Dr. Troupe and Ms. Allen presented to the Board proposed amendments to 16 KAR 5:010, Standards for Accreditation of Educator Preparation Units and Approval of Programs. EPSB staff frequently review the regulation for compliance with current agency and National Council for Accreditation of Teacher Education (NCATE) standards. Amendments are often necessary to keep the accreditation portion of the regulation properly aligned with EPSB's and NCATE's policies. The proposed amendments to various sections for consistent wording and to Sections 9, 16, 19, 24, and 25 would ensure consistency in the regulation's implementation.

At Ms. Gregory's suggestion, and following discussion by the Board, the proposed change in terminology in Section 24 and Section 25 should be revised. "At risk of low performing" should be changed to read "at risk of low *performance*," and "low performing" should be changed to read "low *performance*."

An action item for final Board approval will be presented at the March meeting.

D. Draft EPSB Procedure Manual Amendments

Ms. Allen presented to the Board proposed amendments to two EPSB *Procedure Manual* documents: (1) Alternative Routes to Certification, Reference, and (2) Election of Officers Procedure. Amendments to the *Procedure Manual* have occurred periodically over the years. Changes in the statute governing alternative routes to certification providing an additional option, Option 7, have occurred. These changes have warranted a change in an additional procedure within the *Procedure Manual* for consistency. In addition, the EPSB Chair had requested the option of having a Chair Pro-Tem preside over meetings in the event of the Chair's absence and the Vice-Chair's inability to preside. This option has been added to the policy governing the Election of Officers Procedure. Ms. Allen pointed out that the amended date would carry the date on which the Board approves the changes.

An action item for final Board approval will be presented at the March meeting.

Action Items

A. 2006 June Meeting: Change of Meeting Place and Time: 2006 Retreat: Change of Meeting Place, Date, and Time

Executive Assistant, Rhonda Eversole, related that the Board's 2006 Annual Retreat had been tentatively scheduled for July 16–18, 2006, at the Hampton Inn/Center for Rural Development in Somerset, Kentucky. Soon after assuming her position, the Executive Assistant learned that the Somerset location posed some problems. The Hampton Inn did not have a meeting room large enough to accommodate the retreat sessions, and members would have to leave the Inn and walk to the Center for Rural Development for the sessions. Moreover, the timing of the July retreat last year created schedule conflicts for a number of Board members who were unable to attend the retreat.

The Board Chair recommended that Board members be surveyed about an alternate meeting place for both the 2006 Retreat and the 2006 June meeting, convening them back-to-back, with a Friday–Sunday timeframe for the retreat and then a Monday for the meeting.

Agenda Book

Therefore, ruling out locations of previous retreats and considering the amenities a small- to medium-size metropolitan area could offer, the EPSB leadership staff decided Bowling Green might be a better choice. After contacting the Holiday Inn University Plaza in Bowling Green and considering alternate dates in June, the Executive Assistant surveyed the Board members, asking their opinion about changing the location and time of the 2006 meeting (Bowling Green, 9 AM CDT) and 2006 Annual Retreat (Bowling Green, June 9–11). Twelve of 17 Board members responded to the survey, and all 12 responses were favorable.

2006–001

Motion made by Ms. Thompson, seconded by Mr. Juett, to approve changing the location and dates of the 2006 Annual Retreat to Holiday Inn University Plaza, Bowling Green, Kentucky, June 9–11, 2006, and changing the location and time of the June meeting to Holiday Inn University Plaza, Bowling Green, Kentucky, convening June 12, 2006, at 9 AM CDT.

Information/Discussion Item A

Information Item:

Review of Master's Degree for Rank Change and Efficacy for Improving Student Learning Committee Update

Applicable Statute and Regulations:

KRS 161.028

16 KAR 8:010, 16 KAR 8:020, 16 KAR 8:021

Applicable Goals:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Goal V: Every teacher and administrator shall maintain the standards of the profession.

Background:

Kentucky schools are charged with reaching proficiency by 2014. The PreK-12 education community, which includes school district administrators and teachers, is held accountable for rigorous performance standards tied to annual assessments. With the changing role of the career educator, professional preparation beyond the initial licensure phase presents some unique concerns and issues. Educators need rank change/master's degree programs that have the rigor and relevancy that equip them to move student learning to higher levels.

The EPSB was established as the governing authority responsible for setting standards for approving and evaluating college, university, and school district programs for the preparation of teachers and other professional school personnel. After several years of discussion, the EPSB began the review of rank change/master's degree programs by establishing a committee to address how Kentucky can refashion the way institutions educate experienced educators and school leaders.

In September 2005, the EPSB appointed the Master's Degree Program Committee and charged them to explore professional career pathways for experienced educators to ensure that a key provision of No Child Left Behind—all students will have a highly-qualified educator—was fully addressed. The Committee was charged to develop benchmarks that support a paradigm of change for rank change/master's degree programs and to identify indicators of achievement and/or proxy measures for candidates, programs, and institutions. The Committee was also charged to develop

Agenda Book

specific program guidelines for creating innovative and cutting-edge programs at the master's level that include the approval process.

The Committee has met regularly since November 2005 and has reviewed a number of informative documents. Remaining within the EPSB's statutory boundaries, the Committee's recommendations for regulatory and policy changes will be included in the final report scheduled for May. A copy of the draft report is presented for Board comment and discussion.

STAFF NOTE

Information/Discussion Item B

Information Item:

Kentucky Teacher Internship Program (KTIP), Discussion on the Use of the Teacher Work Sample (TWS)

Applicable Statutes and Regulation:

KRS 161.030

16 KAR 7:010

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In October 2002, the United States Department of Education awarded the EPSB a Title II Teacher Quality Enhancement Grant, which proposed investigating an alternative teacher performance assessment to replace the current assessment used in the Kentucky Teacher Internship Program (KTIP). The Teacher Work Sample (TWS) is designed to put an increased emphasis on student learning by using direct evidence of an intern's ability to design and implement standards-based instruction, analyze student learning, reflect on the teaching and learning process, and make instructional adjustments. This instructionally focused performance assessment provides rubrics and guidelines to promote scoring reliability.

The TWS consists of three components:

1. Observation of Classroom Instruction using a revised Intern Performance Record (IPR);
2. Professional Responsibilities Tasks; and
3. Design of an Instructional Unit, including a video presentation of a lesson within the instructional sequence

To date, three cohorts of interns have been introduced to the TWS through the KTIP pilot program. The first two cohorts of teachers in the pilot have participated in a two-year pilot, and the third cohort is participating in a one-year pilot. The first cohort completed the two-year cycle in the spring of 2005 by using the TWS in place of the portfolio, and the second and third cohorts are using the TWS during the 2005-2006 school year.

During the November 14, 2005, Board meeting, updates were provided concerning the pilot internship program. EPSB asked staff to have TWS participants who are currently using (or piloting) the TWS and revised Intern

Agenda Book

Performance Record to appear before the Board. The discussions will focus on the strengths of TWS, as well as areas of improvement. Invited guests are:

- Karen Cobb, Resource Teacher, Lebanon Middle School;
- Kim Kearney, Intern, Lebanon Middle School;
- Beth Osborne, Assistant Principal, Rosenwald Dunbar Elementary; and
- Kristen Lucas, Intern, Rosenwald Dunbar Elementary.

Kim Kearney and Kristen Lucas will present to the Board a draft of the TWS as provided in the Under Separate Cover section.

If the Board approves the continued use of the TWS in the KTIP program, districts could use either the current KTIP program or the TWS on a voluntary basis. This would also allow time for more universities to incorporate the TWS in their teacher preparation programs as well as additional time for the EPSB to develop and refine the TWS. A draft timeline is provided below:

- 2006-2007: Volunteer schools using the TWS
- 2007-2008: Continue to use volunteer schools
- 2008-2009: Final review and EPSB decision

This matter is being brought to the EPSB for discussion now because current wording in the statute and regulation calls for the end of the KTIP Pilot Project by June 30, 2006. However, the EPSB does have the option of continued voluntary use of the TWS, but that will require changes to 16 KAR 7:010. These changes would be brought to the May Board meeting as a Notice of Intent.

EDUCATION PROFESSIONAL STANDARDS BOARD

STAFF NOTE

Information/Discussion Item D

Information Item:

16 KAR 5:040 Admissions, Placement, and Supervision in Student Teaching, Notice of Intent

Applicable Statutes and Regulation:

KRS 161.028, 161.030, 161.042

Applicable Goal:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Background:

The regulation governing admission, placement, and supervision of student teaching was last updated in 2002 when the General Assembly provided a budgetary allocation for compensation for cooperating teachers that would be administered by the EPSB. The regulation includes eligibility requirements for cooperating teachers, student teacher requirements, the educator preparation institution's responsibilities, and the management guidelines for the compensation fund. There are two issues open for discussion and resolution in order to provide the necessary services and experiences for student teachers and cooperating teachers.

During the 2004 EPSB Retreat, staff presented several issues for the board to review related to 16 KAR 5:040. The only issue remaining from that original discussion concerns waiver requests. Board members were asked if they wanted to continue reviewing individual waiver requests. An affirmative response was given. Since that time, staff has continued to bring cooperating teacher waiver requests for board approval. Waiver requests have increased over the past several years and other issues have surfaced that require discussion and resolution.

This regulation is being brought with suggested amendments regarding cooperating teacher eligibility requirements to address the continuing shortage of master teachers in difficult to place certification areas. Several suggestions for consideration are listed:

- Allow three (3) years of teaching experience on a professional certificate, instead of four (4) years of teaching
- Allow fifteen (15) hours or more of college credit toward the master's degree if the educator has not yet attained Rank II
- Delete the requirement for 20 years of teaching experience
- Delete the requirement for work as a cooperating teacher during the past five (5) years

Agenda Book

In reviewing surrounding state guidelines, Indiana guidelines are set by higher education; Ohio and West Virginia require three (3) years experience, no master's degree and the principal makes the recommendation; Tennessee requires four (4) years of experience and a master's degree. In Kentucky, the Interdisciplinary Early Childhood Education (IECE) regulation requires three (3) years of teaching experience.

With the re-alignment of payment dates and expansion of the method of compensation for cooperating teachers to actual weeks served, the regulation should provide a more transparent process for administration of funds. A minor change in payment dates will ensure that a cooperating teacher receives his/her payment before the school term has concluded. The current distribution dates have caused payments to sometime arrive after district schools had closed for the summer.

The regulation currently requires a "per semester payment" which often results in a cooperating teacher who has served for sixteen (16) weeks receiving less per week than a cooperating teacher who served for twelve (12) weeks. Cooperating teachers should be paid for the total number of weeks served. Seventy-five percent of the Kentucky educator preparation programs require thirteen (13) or more weeks of student teaching.

EPSB Technology Branch is designing and updating the electronic data management system used by staff. This will enhance the payment process for cooperating teachers, colleges/universities, and EPSB staff. Updated terminology and a number of minor changes for consistency were also included in the revisions to the regulation.

STAFF NOTE

Information/Discussion Item E

Information Item:

16 KAR 2:010, Kentucky Teaching Certificates, Amendment, Notice of Intent

Applicable Statutes and Regulations:

KRS 161.020, 161.028 (1) (a), 161.03016 KAR 2:010

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In 2004, the Educational Professional Standards Board amended 16 KAR 2:010 to assist districts in meeting Highly Qualified (HQ) requirements established by The No Child Left Behind Act of 2001 by developing the TC-HQ route to add to and/or extend a current Kentucky teaching certificate. The TC-HQ allows certificate modifications by using a combination of past teaching experience, professional development, awards and achievements, and relevant coursework, which is patterned after the High Objective Uniform State Standard of Evaluation (HOUSSE) index. This index is approved by the federal government to determine a teacher's HQ status.

EPSB approved the use of the TC-HQ until June 30, 2006. Since its implementation, a total of 62 persons have used this route, representing over 50 districts. The bulk of these certificate changes have been in the middle school area. These extensions or endorsements can be added to the 8-12 certificate upon evidence of a major in the appropriate certification area. Anecdotal comments from district superintendents and human resource directors have been very positive with regard to this option, which many believe should be permanent.

Since the current wording of the regulation requires the TC-HQ option to cease effective June 2006, EPSB staff is asking the Board to consider extending its use beyond this date.

Groups/Persons Consulted:

1. Local school district superintendents
2. Human resources directors.

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

With the passage of the federal No Child Left Behind (NCLB) legislation, the Education Professional Standards Board approved a series of documents clarifying a variety of issues, including determination of the types of Kentucky teaching certificates that constitute “full state certification.” This determination is necessary for schools to determine the “highly qualified” status of core content teachers on the annual Highly Qualified (HQ) Report.

Probationary certificates have not been identified as “full state certification” because current EPSB regulations do not specify a set period of time during which all probationary coursework must be completed. Completion of such coursework allows EPSB staff to issue a professional certificate in the specific area sought. However, in the 2003 EPSB document, entitled *Identifying “Highly Qualified” Teachers Pursuant to the No Child Left Behind Act of 2001*, EPSB addressed probationary certificates by stating that regulations would be revised to address the issue of completion time for coursework as follows:

Agenda Book

The EPSB currently issues several “probationary certificates” to candidates who have a defined set of qualifications, but lack “full State certification” in that content area. The candidate qualifications and program requirements mirror those of the alternative routes to certification. Only candidates who complete “full State certification” in three years can be considered for meeting the alternative route to certification program requirements of 34 CFR §200.56 (a), and the EPSB will amend its relevant regulations to align the probationary certificate with NCLB requirements.

EPSB staff have amended language in the four regulations governing the types of probationary certificates to align these with NCLB requirements concerning “full state certification” by establishing a three-year time limit to complete all coursework required. This time limit would allow the granting of a professional certificate in the area sought. 16 KAR 2:150 has also been amended to reflect changes in the governing entities in the area of career and technical education.

If the Education Professional Standards Board concurs with staff on the revision to these regulations (drafts that follow), an action item for final approval will be presented at the May 2006 Board meeting.

Applicable Statutes and Regulations:

KRS 161, 020, KRS 161.028, KRS 161.030, 16 KAR 2:020

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In reviewing all career and technical education certificates, university instructors asked EPSB staff to address the current regulation's (16 KAR 2:020) allowance of occupational proficiency evaluations and assessments to be used in lieu of actual coursework for the renewal of occupation-based certificates. This allowance may act to delay the new teacher's entry into the required 64-hour planned program. Such delay does not support the need for these teachers to progress in a timely manner toward completion of university coursework. (These teachers may enter the career and technical education classroom without a bachelor's degree due to the need for the candidates' strong background in a career field.)

If the Board concurs with staff on the revision to the regulation, an action item for final approval will be presented at the May 2006 Board meeting.

Information/Discussion Item H

16 KAR 3:080, Vocational Education Administrators, Amendment, Notice of Intent

Applicable Statutes and Regulation:

KRS 161.020, KRS 161.028, KRS 161.030, 16 KAR 3:080

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In reviewing all career and technical education certificates, EPSB staff believe the current regulation (16 KAR 3:080) is not clear about who may be hired for the position of career and technical school principal. Since there have been no career/technical education candidates in certain parts of the state, institutions have hired administrators who hold the regular principal certificate. During the past three years, university programs have begun to produce more candidates for these positions. However, representatives of the two governing entities for career and technical schools believe there must be more flexibility due to the inevitable regional shortages.

EPSB staff have worked with these entities, as well as representatives from all state institutions who offer the career and technical principal certification program, to construct a proposed amendment that would allow the employment of principal candidates who possess the regular principal certification along with an appropriate career and technical teaching background.

The proposed amendment would also lengthen the teaching experience requirement for such principals to three years. Lengthening the teaching experience requirement would align 16 KAR 3:080 with other regulations governing administrative certificates. In addition, the proposed amendment makes changes to the governing entities' names and streamlines language regarding to previously issued career and technical supervision certificates.

If the Board concurs with staff on the amendment, an action item for final approval will be presented at the May 2006 Board meeting.

Information/Discussion Item I

Information Item:

16 KAR 6:020, Written Examination Prerequisites for Occupation-Based Career and Technical Education Teachers, Amendment, Notice of Intent

Applicable Statutes and Regulation:

KRS 161.020, KRS 161.028, KRS 161.030, 16 KAR 6:020

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In reviewing all career and technical education certificates, EPSB staff believe the current practice of allowing a six-month waiver for newly hired occupation-based career and technical education teachers to successfully complete the Preprofessional Skills Test (PPST, also known as Praxis I) must be addressed. The PPST gives universities a reasonable assurance that the new teacher has sufficient academic skills to succeed in the required 64-hour planned program and in the coursework beyond that point, which they must complete to retain occupation-based certification.

The Board has never added the six-month waiver into regulation (16 KAR 6:020). Rather, the Board permitted the six-month waiver by its action at the August 18, 2003, meeting (Board Action #2003-106) The Board took this action to aid university personnel in requiring PPST to be used as a predictive measure regarding the academic abilities of new occupation-based teachers. While the Board supported the need for the PPST, the waiver was allowed because the timing of the assessment dates often prevented schools from hiring new teachers in August. The time to take and receive scores for the test could not be secured until later in the fall. The Board asked EPSB staff to monitor the waiver's implementation and to make a recommendation at a later date whether to amend 16 KAR 6:020.

EPSB staff recommends that the PPST be retained. However, the staff also proposes that the Compass test, designed by American College Test (ACT), be used as an alternative in cases where timing of new hires is a critical issue. The Compass test is also used as a predictive assessment and has the advantage of being available at all locations of the Kentucky Community and Technical College System (KCTCS). In addition, the Compass test can be scored immediately, eliminating the need for the six-month waiver process.

Agenda Book

Representatives of KDE, Workforce Development, and universities offering the occupation-based career and technical program all have endorsed the use of the Compass test as an alternative to the PPST. The cut scores proposed in the regulation are equal to the score of 18 on the American College Test, which is the minimum composite score currently needed for entry into a KCTCS program. (Note that a PPST validation panel is planned for June 2006; thus, it is possible that the PPST scores shown in the regulation may need to be brought back to the EPSB for modification and approval while the regulation is going through the regulatory process.)

Also, an addition has been made to the regulation to reflect the need for an assessment standard for the certification area of Culinary Arts.

If the Board concurs with staff on the amendment to the regulation, an action item for final approval will be presented at the May 2006 Board meeting.

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

In reviewing all career and technical education certificates, EPSB staff propose adding language to 16 KAR 9:040 that clearly reflects the same prerequisite requirements for the part-time adjunct occupation-based instructor certificate as are required for the full-time instructor certificate. Kentucky Department of Education (KDE) representatives who worked with EPSB staff recommended this change.

If the Board concurs with staff on the amendment to the regulation an action item for final approval will be presented at the May 2006 Board meeting.

Action Item A

Action Item:

Kentucky State University: Accreditation of the Educator Preparation Unit and Approval of Programs

Applicable Statute or Regulation:

KRS 161.028

16 KAR 5:010

Applicable Goal:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Issue:

Should the EPSB grant continuing accreditation to the Educator Preparation Unit and approve the initial preparation programs at Kentucky State University?

Background:

A joint National Council for Accreditation of Teacher Education (NCATE)/State Board of Examiners (BOE) team conducted the on-site evaluation of the Educator Preparation Unit and programs at Kentucky State University on April 9-13, 2005. The BOE also reviewed the program review documents as part of the on-site visit. All were found to be in compliance with program guidelines as established and approved by the EPSB.

The Accreditation Audit Committee (AAC) members met February 3, 2006 and reviewed the Institutional Report, BOE report, institutional rejoinder, annual data and narrative reports from Kentucky State University, and NCATE's Action Letter. The AAC agreed with the findings of the BOE team that all standards were met. The AAC accepted NCATE's continuing accreditation decision for Kentucky State University. The AAC also accepted NCATE's rewording of all the areas for improvement and an additional area for improvement cited by NCATE in Standard 2.

Corrected Areas for Improvement:

Standard 6: Unit Governance and Resources

1. Faculty teaching and advising assignments are excessive.

Agenda Book

Continued Areas for Improvement:

None

New Areas for Improvement:

Standard 1: Candidate Knowledge, Skills, and Dispositions

1. Candidates in biological sciences and integrated music programs lack sufficient content knowledge.

Standard 2: Assessment System and Unit Evaluation

1. The unit does not systematically and consistently summarize and analyze data collected on candidate performance, program effectiveness, or unit operations.
2. The unit does not have a systematic process for assuring that assessment data, including information in the database, are used for program improvement.
3. The unit provided no evidence for ensuring fairness, accuracy, and consistency of its assessment procedures.

Standard 3: Faculty Qualifications, Performance, and Development

1. Best practices in teaching are not modeled in all courses.

Pursuant to 16 KAR 5:010, Section 18, the AAC accepts the areas for improvement as cited by NCATE in the November 2005 letter and recommends: (1) CONTINUING ACCREDITATION and (2) APPROVAL OF THE INITIAL LEVEL EDUCATOR PREPARATION PROGRAMS at Kentucky State University.

(NOTE: Documentation as it relates to the cited areas for improvement is provided in the Under Separate Cover section. All accreditation materials will be available at the meeting or will be mailed upon request for those board members wishing to review them.)

Groups/Persons Consulted:

1. Content Area Program Reviewers
2. Continuous Assessment Review Committee
3. Reading Committee
4. Joint NCATE/State Board of Examiners Team for Kentucky State University
5. Accreditation Audit Committee

Alternative Actions:

Issue One: Unit Accreditation

1. 1. Accept the recommendation of the AAC and grant CONTINUING ACCREDITATION for Kentucky State University.

Agenda Book

2. Modify the AAC recommendation and grant CONTINUING ACCREDITATION for Kentucky State University.
3. Do not accept the AAC recommendation and grant ACCREDITATION WITH CONDITIONS for Kentucky State University.
4. Do not accept the AAC recommendation and grant ACCREDITATION WITH PROBATION for Kentucky State University.

Issue Two: Program Approval

1. Accept the recommendation of the AAC and grant APPROVAL for the initial level educator preparation programs at Kentucky State University.
2. Do not accept the AAC recommendation and grant APPROVAL WITH CONDITIONS for the initial level educator preparation programs at Kentucky State University.
3. Do not accept the AAC recommendation and stipulate DENIAL OF APPROVAL for the initial level educator preparation programs at Kentucky State University.

AAC Recommendation:

Issue One: Alternative 1

Issue Two: Alternative 1

Rationale:

The Joint NCATE/State BOE team and AAC followed national and state guidelines for review/accreditation of educator preparation programs.

Action Item A

Action Item:

Bellarmino University: Accreditation of the Educator Preparation Unit and Approval of Programs

Applicable Statute or Regulation:

KRS 161.028

16 KAR 5:010

Applicable Goal:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Issue:

Should the EPSB grant continuing accreditation to the Educator Preparation Unit and approve the initial and advanced level preparation programs at Bellarmine University?

Background:

A joint National Council for Accreditation of Teacher Education (NCATE)/State Board of Examiners (BOE) team conducted the on-site evaluation of the Educator Preparation Unit and programs at Bellarmine University on October 9-13, 2004. The BOE also reviewed the program review documents as part of the on-site visit. All were found to be in compliance with program guidelines as established and approved by the EPSB.

The Accreditation Audit Committee (AAC) members met February 3, 2006 and reviewed the Institutional Report, BOE report, institutional rejoinder, NCATE accreditation letter dated March 21, 2005, Bellarmine's Accreditation with Conditions Report, NCATE accreditation letter dated October 28, 2005, and annual data and narrative reports from Bellarmine University. The joint NCATE/State BOE team voted on each of the standards and found all but Standard 2 "Met." During the revision of the BOE Report two areas for improvement were added in Standard 2 without the knowledge or input of the state team, a violation of the NCATE/state partnership protocol. Because of the lack of evidence in the BOE Report and the violation of the protocol, the AAC did not agree with the findings of the joint NCATE/State BOE team that all standards but Standard 2 were met. The AAC also did not accept NCATE's conditional accreditation decision

Agenda Book

for Bellarmine University. The AAC did agree with the corrected areas for improvement as listed below:

Corrected Areas for Improvement:

Standard 4: Diversity

- The number of candidates from underrepresented populations is inadequate.

Standard 6: Unit Governance and Resources

- 1) The number of support staff is insufficient to provide assistance for the programs offered by the unit.

Continued Areas for Improvement:

None

Below is a list of the new areas for improvement cited in the BOE Report:

Standard 2: Assessment System and Unit Evaluation

- 1) The guide sheet for portfolio preparation and the scoring of evidence do not provide criteria or rubrics to scorers for the evaluation of evidence or the assignment of scores that can be tested for reliability across scorers.

Reworded by NCATE in March and October 2005 Action Reports: The unit has not specified criteria or scoring guides to ensure reliable scoring of portfolios and other performance assessments.

- 2) The unit has not provided systematic testing for accuracy, consistency, and fairness of assessments and the scoring procedures.

Reworded by NCATE in March and October 2005 Action Reports: The unit has not provided systematic testing for accuracy, consistency, and fairness of its assessments.

- 3) Information technology is not being used systematically and consistently to aggregate or analyze data for the purpose of program improvement.

Reworded by NCATE in March and October 2005 Action Reports: The unit is not systematically and consistently aggregating or analyzing data for the purpose of program improvement.

- 4) Some advanced programs do not have a mid-program assessment transition point.

Reworded by NCATE in October 2005 Action Report: Most programs formally assess candidates only at entry and exit. (Advanced level)

Reworded by NCATE in March 2005 Action Report: Programs within the unit

Agenda Book

do not have clearly defined and comprehensive rubrics for candidate assessment at transition points. (Advanced level)

- 5) Added by NCATE in October 2005 Action Report: The assessment system is not fully operational and data driven.

Standard 4: Diversity

- 1) Candidates in initial programs have limited opportunities to interact with candidates from diverse racial/ethnic groups. (Initial level)
- 2) Candidates have limited opportunities to interact with racial/ethnic and gender diverse unit faculty.
- 3) The unit does not ensure that all candidates have racially/ethnically diverse classroom field experiences.

Standard 6: Unit Governance and Resources

- 1) Some faculty routinely teach more than the allowed maximum of 12 hours per semester.

Because NCATE did not follow state partnership protocol and the lack of evidence in the BOE Report supporting the new areas for improvement added by NCATE, the AAC did not agree with the first two areas for improvement cited in Standard 2 along with the one added by NCATE in the October 2005 Action Report. The AAC also did not accept the first area for improvement cited in Standard 4 of the BOE Report.

Listed below are the areas for improvement the AAC recommends to the EPSB:

New Areas for Improvement:

Standard 2: Assessment System and Unit Evaluation

- 1) Information technology is not being used systematically and consistently to aggregate or analyze data for the purpose of program improvement.
- 2) Some advanced programs do not have a mid-program assessment transition point.

Standard 4: Diversity

- 2) The unit does not ensure that all candidates have racially/ethnically diverse classroom field experiences.

Standard 6: Unit Governance and Resources

- 1) Some faculty routinely teach more than the allowed maximum of 12 hours per semester.

Pursuant to 16 KAR 5:010, Section 18, the AAC accepts the areas for improvement listed above and recommends: (1) CONTINUING ACCREDITATION and (2) APPROVAL OF THE INITIAL and ADVANCED LEVEL EDUCATOR PREPARATION PROGRAMS at Bellarmine University.

(NOTE: Documentation as it relates to the cited areas for improvement is provided in the Under Separate Cover section. All accreditation materials will be available at the meeting or will be mailed upon request for those board members wishing to review them.)

Motion made by Frank Welch, seconded by Jack Rose, to approve the minutes from the September 16, 2004 AAC meeting.

Vote: Approve the motion (Yes – Unanimous)

The AAC reviewed the documentation including the Institutional Reports (IR), Board of Examiner (BOE) team reports, institutional rejoinders, annual data, and narrative reports, and made recommendations for program approval and accreditation for:

KENTUCKY STATE UNIVERSITY

Kentucky State University was represented by Dr. Lucian Yates, Chair, Dr. Reginald Nnazor and Mr. Barry Pelfrey, co-coordinators of NCATE visit. Dr. Zella Wells, BOE co-chair of the joint NCATE/state accreditation visit, presented the report on behalf of the team by providing an overview of the visit findings. Dr. Wells was complimentary of the hospitality provided by KSU to the BOE team. Dr. Wells identified each of the areas for improvement and indicated that the team determined that all standards were met. There was one previous weakness corrected in Standard 6 and there were no areas for improvement continued from the previous visit. There was one new area for improvement cited in Standard 1. In Standard 2, two new areas of improvement were cited by the BOE team and NCATE added another. There were no areas for improvement cited in Standards 3, 4, and 6. There was one new area for improvement in Standard 5. Although the context of the areas for improvement did not change, each of the areas for improvement cited in the BOE Report was reworded by NCATE.

Dr. Yates was also complimentary of the BOE team. He stated that he agreed with

Agenda Book

the findings of the BOE team.

The AAC reviewed, questioned, and discussed the issues across the standards. The committee had no questions regarding the standards and areas for improvement cited in the BOE report. There was a question regarding the statement written on the Assistant Chair's Checklist in regards to the "inordinate amount of time requesting and searching for data to support unit compliance". Dr. Wells did indicate that, although there were numerous requests, KSU officials did provide the requested information. The AAC complimented KSU on the work they've done regarding the diversity of the student body and the improvements made. The AAC was also complimentary of Dr. Wells and the well-written report. The rewording of the areas for improvement and the new area for improvement cited by NCATE were pointed out to the committee.

After hearing the team chair's report and comments from institutional representatives, and following the prescribed decisions format, the AAC determined that the BOE team followed approved accreditation guidelines when conducting the visit (*Vote: Unanimous**). The members of the AAC agreed with the Corrected Areas for Improvement section as reported by the Board of Examiners (*Vote: Unanimous**). The members of the AAC agreed with the New Areas for Improvement section as reported by the Board of Examiners (*Vote: Unanimous**). The AAC agreed with the findings of the BOE team in that all standards were met. The AAC also accepted NCATE's accreditation decision for KSU and the reworded and additional area for improvement.

The AAC recommends **PROGRAM APPROVAL** (*Vote: Unanimous**) and **CONTINUING ACCREDITATION** (*Vote: Unanimous**) for Kentucky State University.

* Unanimous vote is representative of 5 members as Ann Walls and Renee Scott recused.

BELLARMINE UNIVERSITY

Bellarmine University was represented by Dr. Maureen Norris, Dean of the School of Education, Drs. Anne Moll and Christine Price, co-coordinators of the NCATE visit. Dr. Martha O'Bryan, BOE co-chair of the joint NCATE/state accreditation visit, presented the report on behalf of the team by providing an overview of the visit. Dr. O'Bryan provided insight to the AAC regarding the circumstances surrounding the visit, particularly relating to the decision-making process around Standard 2 and the ultimate decision. She indicated that while there was much discussion, the joint team did ultimately vote to cite Standard 2 as "Not Met" even though there were only two areas for improvement cited in the BOE report when the team left campus at the end of the visit. When the final report was issued, there were two additional areas for improvement cited which were not shared with nor agreed upon by the state team. This is in violation of the agreed partnership protocol with NCATE.

The AAC discussed each standard. For Standard 2, the discussion focused on the

Agenda Book

lack of appropriate protocol being followed by NCATE and lack of evidence in the BOE Report to support the additional areas for improvement. Because the state team was not provided an opportunity to give feedback on the added areas for improvement in Standard 2 and the lack of evidence in the BOE Report, the AAC does not recognize the first two areas for improvement cited by NCATE on page 35 of the BOE Report. Additionally, there was some discussion regarding Standard 4 and the candidates' opportunities to interact with diverse candidates and the institution's ability to ensure opportunities to work in diverse settings. The AAC determined that the evidence cited in the BOE Report does not support the first area for improvement (ethnically/racially diverse candidates) cited on page 51. The AAC also agreed that the data in the BOE Report supports that candidates have limited opportunities to interact with racially/ethnically diverse unit faculty. Also for Standard 4, the AAC did agree that the institution does not have a way to ensure candidates have diverse field experiences. Regarding Standard 6, there was discussion of the amount of faculty overload. The institutional representatives were in agreement that at the time of the visit, there was overload. However, since the visit a new provost has eliminated all overloads for the faculty.

After hearing the team chair's report and comments from institutional representatives, the committee reached consensus on the following:

Following the prescribed decisions format, the AAC determined that the BOE team did not follow approved accreditation guidelines when conducting the visit (*Vote: Unanimous**). The AAC agreed with the Corrected Areas for Improvement cited in the BOE Report (*Vote: Unanimous**). There were no Continuing Areas for Improvement cited. The AAC did not agree with the New Areas for Improvement section as reported by the BOE (*Vote: Unanimous**). As a result the AAC identified two areas for improvement under Standard 2: 1) Information technology is not being used systematically and consistently to aggregate or analyze data for the purpose of program improvement; and 2) Some advanced programs do not have a mid-program assessment transition point.

For Standard 4 the AAC determined there was not sufficient evidence in the BOE Report to support citing the first area for improvement. The AAC voted on each area for improvement under Standard 4. The first area for improvement was not accepted (*Vote: No – 4; Yes – 2 (Ann Walls and Renee Scott)*); the second area for improvement was accepted (*Vote: Yes – 4; No – 2 (Frank Welch and Jack Rose)*); the third area for improvement was accepted (*Vote: Unanimous**). The areas of improvement in Standard are: 1) Candidates have limited opportunities to interact with racial/ethnic and gender diverse unit faculty; 2) The unit does not ensure that all candidates have racially/ethnically diverse classroom field experiences. The AAC accepted the new area for improvement cited in Standard 6 as identified in the BOE Report.

The AAC did not agree with the findings of the BOE team regarding the unmet standard; therefore, the AAC recommends that Standard 2 is "Met". Additionally, the AAC did not accept the NCATE conditional accreditation decision. Dr. O'Bryan agreed with the decisions of the AAC.

The AAC recommends **PROGRAM APPROVAL** (*Vote: Unanimous**) and

Agenda Book

CONTINUING ACCREDITATION (*Vote: Unanimous**) for Bellarmine University.

* Unanimous vote is representative of 6 members as Tim Watkins recused.

Following lunch there was a discussion regarding the EPSB accreditation decision for Midway College. A motion was made by Renee Scott and seconded by Frank Welch (Vote: Unanimous) to send a recommendation to the EPSB to read as follows:

When there are concerns surrounding and leading up to accreditation recommendations made by the Accreditation Audit Committee (AAC), the AAC suggests the EPSB entertain the possibility of “remand” to the AAC for further consideration or explanation, when necessary.

Biennial Review

The AAC was divided into two work groups to review the 2004 and 2005 Annual Reports (Part C – narrative reports which address institutions’ actions regarding their areas for improvement). Response worksheets were filled out by each work group identifying decisions for the following institutions: Campbellsville University, Centre College, University of the Cumberlands, Eastern Kentucky University, Georgetown College, Indiana Wesleyan University, Lindsey Wilson College, Morehead State University, Murray State University, Northern Kentucky University, Pikeville College, Spalding University, Transylvania University, Union College, University of Kentucky, and University of Louisville.

The AAC considered possible dates for the next meeting and set a tentative date for March 31, 2006, from 9:00 – 12:00.

Judi Conrad as chair of the AAC acknowledged Renee Scott for her service to the committee.

Frank Welch moved to adjourn the meeting with a second from Jack Rose. Motion approved with a unanimous vote. The meeting adjourned at 3:30 p.m.

Action Item:

Draft EPSB Procedure Manual Amendments

Applicable Statute:

KRS 161.028

Applicable Goals:

Goal I–Goal VII

Issue:

Should the Education Professional Standards Board (EPSB) approve the Procedure Manual as amended?

Background:

In 1998 the EPSB began creating and compiling policies to fill in the “in-house” procedural blanks of the applicable statutes and administrative regulations and to ensure consistent Board action. Amendments to the EPSB Procedure Manual have occurred periodically over the years. Changes in the statute governing Alternative Routes to Certification providing an additional option, Option 7, have occurred. Moreover, there have been changes to the laws regarding some of the remaining alternative routes. These changes have warranted a change in an additional procedure within the Procedure Manual for consistency. In addition, the EPSB Chair has requested the option of having a Chair Pro-Tem preside over meetings in the event of the Chair’s absence and the Vice-Chair’s inability to preside over EPSB meetings. This option has been added to the policy governing the Election of Officers Procedure.

The final change to the procedure manual pertains to the roles and responsibilities of all EPSB members. In September 2004, the EPSB voted to establish a code of ethics governing EPSB members. Accordingly, adherence to the Code of Ethics of Education Professional Standards Board Members was added as a responsibility of all members. The suggested amendments to the manual are provided for EPSB review and consideration and appear underlined in italics.

Alternative Actions:

1. Approve the changes to the Procedure Manual
2. Modify and approve the changes to the Procedure Manual
3. Do not approve the changes to the Procedure Manual

Agenda Book

Staff Recommendation:

Alternative 1

Rationale

The purpose of a policy and procedure manual is to ensure consistent action by the Board. The policies included in the manual achieve that specific aim without impinging on the EPSB's professional judgment.

Action Item C

Action Item:

16 KAR 7:020, Kentucky Principal Internship Program (KPIP), Amendment, Final Action

Applicable Statute and Regulation:

KRS 161.027

16 KAR 7:020

Applicable Goal:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Issue:

Should the EPSB approve amendments to 16 KAR 7:020?

Background:

In 1985 the General Assembly established the Kentucky Principal Internship Program (KPIP). Codified in KRS 161.027, the statute requires all new principals and full-time assistant principals to complete successfully the internship. An average of 250 new principals and full-time assistant principals participate in KPIP on a yearly basis.

Both educators and legislators have expressed the need for KPIP to be updated to meet the evolving needs of Kentucky schools. EPSB staff have collaborated with the Commonwealth Collaborative for School Leadership Programs (CCSLP), the Kentucky Advisory Council for Internship (KACI), the Council on Postsecondary Education (CPE), the Kentucky Department of Education (KDE), local school districts, and various professional organizations to develop proposed improvements to KPIP.

At the January 2006 Board meeting, EPSB staff reported on changes that need to be made to KPIP. A summary of proposed regulatory amendments to 16 KAR 7:020 follows:

1. Inclusion of a detailed appeals process for KPIP similar to the appeals process established in the Kentucky Teacher Internship Program (KTIP) (16 KAR 7:010);
2. Addition of new language requiring a principal mentor to have served as a principal at least three of the last five years prior to serving as a mentor for an intern principal or full-time assistant principal;

Agenda Book

3. An increase in the supplement to principal mentors not to exceed \$1,400 from the original \$1,000 to remain consistent with KTIP stipends for 50 hours of mentoring;
4. Inclusion of language stating that payments are contingent on adequate funding under the Commonwealth's biennial budget;
5. Requirement that the observation period of KPIP committee members is to be three (3) hours' duration;
6. Inclusion of language allowing for online submission of work completed by the KPIP committee as established in KTIP (16 KAR 7:010);
7. Inclusion of language incorporating the KPIP Handbook by reference in 16 KAR 7:020; and
8. Revision of language to remove the responsibility of KPIP from KDE to EPSB.

Alternative Actions:

1. Approve the amendments to 16 KAR 7:020.
2. Modify and approve the amendments to 16 KAR 7:020.
3. Do not approve the amendments to 16 KAR7:020.

Staff Recommendation:

Alternative 1

Rationale:

Language in KPIP (16 KAR 7:020) is either inaccurate or dissimilar to current practices described in the KPIP Handbook. Nor does current language provide for a well-defined appeals process for unsuccessful interns. These proposed amendments will address issues and will correct errors that EPSB staff have identified and will make decisions by an appeals committee legally defensible.

STAFF NOTE

Action Item D

Action Item:

16 KAR 2:060, School Nurse Certification, Amendment, Final Action

Applicable Statutes and Regulation:

KRS 156.070, 156.160, 161.020, 161.025, 161.028, 161.030

Applicable Goal:

Goal I: Every educator preparation program in Kentucky shall meet all accreditation standards established by the Education Professional Standards Board (EPSB).

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Background:

Regulation 16 KAR 2:060, School Nurse, has not been revised since it was originally adopted in January 1980. Practicing school nurses seeking certification, but having difficulty meeting the requirements as written in 1980, recommended revisions to 16 KAR 2:060. The original regulation allowed registered nurses with a diploma or an associate degree to complete school nurse preparation programs that led to a bachelor's degree. Since the original regulation did not include provisions for degreed nurses, those persons having attained a bachelor's degree or a master's degree in nursing were also required to complete the school nurse preparation program. This required the candidate to duplicate coursework. A major rewrite of the regulation was deemed necessary to accommodate the changing role and qualifications of school nurses.

In 2003, a small group met to develop the first draft of recommended changes. Kentucky School Nurse Association (KSNA) members were asked to provide comments about the draft. EPSB staff also met with the Kentucky Board of Nursing (KBN) and its attorney to review the regulation for conflicts with KBN requirements. Since Western Kentucky University (WKU) was the only institution offering the school nurse certification, faculty from WKU's Department of Nursing were asked to join the committee. School nurse consultants from the Kentucky Department of Education (KDE) were instrumental in guiding the development of the regulation. The Department of Public Health (DPH) was also involved in the revision discussion.

In Spring 2005, EPSB staff were invited to speak to KSNA members during the general session of the association's state conference. Staff provided additional clarification of the regulation and answers to questions. KSNA

Program Description: The School Nurse Certification Program in the Department of Nursing at Western Kentucky University exists to prepare the registered nurse to fulfill the multiple roles of the school nurse in K-12 settings. - Health services-Serves as the coordinator of the health services program, provides nursing care, and advocates for health rights.
- Health education-Provides appropriate health information that promotes informed health care decisions, promotes health, prevents disease, and enhances school performance.
- Environment-Identifies health and safety concerns in the school community and promotes a safe and nurturing school environment.
- Nutrition-Supports school food service programs and promotes the benefits of healthy eating patterns.
- Physical education/activity-Promotes health activities, physical education, and sports policies/practices that promote safety and good sportsmanship.
- Counseling/mental health-Provides health counseling, assesses mental health needs, provides interventions, refers students to appropriate school staff or community agencies, and provides follow-up once treatment is prescribed.
- Parent/community involvement-Promotes community participation in assuring a health school and serves as school liaison to a health advisory committee.
- Staff wellness-Provides health education and counseling, promotes health activities and environment for school staff.

8 filled as it occurs in a manner consistent with the provisions for initial appointment.

9 (4) A member of the Accreditation Audit Committee shall be trained by NCATE or in
10 NCATE-approved training.

11 (5) Following an on-site accreditation visit, the Accreditation Audit Committee shall review

14 prepare a recommendation for consideration by the EPSB.

15 (a) The committee shall review procedures of the Board of Examiners to determine whether
16 approved accreditation guidelines were followed.

17 (b) For each institution, the committee shall make a recommendation with respect to the
18 accreditation of the institutional unit for educator preparation as well as for approval of the
19 individual programs of preparation.

20 (c) For first accreditation, one (1) of four (4) recommendations shall be made:

21 1. Accreditation;

22 2. Provisional accreditation;

23 3. Denial of accreditation; or

24 4. Revocation of accreditation.

Agenda Book

- 1 (d) For regular continuing accreditation, one (1) of four (4) recommendations shall be made:
- 2 1. Accreditation;
- 3 2. Accreditation with conditions;
- 4 3. Accreditation with probation; or
- 5 4. Revocation of accreditation.
- 6 (6) For both first and continuing accreditation, the Accreditation Audit Committee shall
- 7 review each program report including a report from the Reading Committee, Board of
- 8 Examiners team, and institutional response and shall make one (1) of three (3)
- 9 recommendations for each individual preparation program to the EPSB:
- 10 (a) Approval;
- 11 (b) Approval with conditions; or
- 12 (c) Denial of approval.
- 13 (7) The Accreditation Audit Committee shall compile accreditation data and information for
- 14 each Kentucky institution that prepares school personnel. It shall prepare for the EPSB
- 15 reports and recommendations regarding accreditation standards and procedures as needed to
- 16 improve the accreditation process and the preparation of school personnel.
- 17 Section 19. Official State Accreditation Action by the Education Professional Standards
- 18 Board. (1) A recommendation from the Accreditation Audit Committee shall be presented to
- 19 the full EPSB.
- 20 (2) The EPSB shall consider the findings and recommendations of the Accreditation Audit
- 21 Committee and make a final determination regarding the state accreditation of the educator
- 22 preparation unit.
- 23 (3) Decision options following a first accreditation visit shall include:
- 24 (a) Accreditation.

Agenda Book

- 1 1. This accreditation decision indicates that the unit meets each of the six (6) NCATE
2 standards for unit accreditation. Areas for improvement may be cited, indicating problems
3 warranting the institution's attention. In its subsequent annual reports, the professional
4 education unit shall be expected to describe progress made in addressing the areas for
5 improvement cited in the EPSB's action report.
- 6 2. The next on-site visit shall be scheduled five (5) years following the semester of the visit;
7 (b) Provisional accreditation.
- 8 1. This accreditation decision indicates that the unit has not met one (1) or more of the
9 NCATE standards. The unit has accredited status but shall satisfy provisions by meeting each
10 previously-unmet standard. EPSB shall require submission of documentation that addresses
11 the unmet standard or standards within six (6) months of the accreditation decision, or shall
12 schedule a visit focused on the unmet standard or standards within two (2) years of the
13 semester that the provisional accreditation decision was granted. If the EPSB decides to
14 require submission of documentation, the institution may choose to waive that option in favor
15 of the focused visit within two (2) years. Following the focused visit, the EPSB shall decide
16 to:
 - 17 a. Accredite; or
 - 18 b. Revoke accreditation.
- 19 2. If the unit is accredited, the next on-site visit shall be scheduled for five (5) years
20 following the semester of the first accreditation visit; or
- 21 (c) Denial of accreditation. This accreditation decision indicates that the unit does not meet
22 one (1) or more of the NCATE standards, and has pervasive problems that limit its capacity
23 to offer quality programs that adequately prepare candidates.

Agenda Book

1 (d) Revocation of accreditation. This accreditation decision indicates that the unit has not
2 sufficiently addressed the unmet standard or standards following a focused visit.

3 (4) Decision options following a continuing accreditation visit shall include:

4 (a) Accreditation.

5 1. This accreditation decision indicates that the unit meets each of the six (6) NCATE
6 standards for unit accreditation. Areas for improvement may be cited, indicating problems
7 warranting the institution's attention. In its subsequent annual reports, the professional
8 education unit shall be expected to describe progress made in addressing the areas for
9 improvement cited in EPSB's action report.

10 2. The next on-site visit shall be scheduled for seven (7) years following the semester of the
11 visit.

12 (b) Accreditation with conditions.

13 1. This accreditation decision indicates that the unit has not met one (1) or more of the
14 NCATE standards. If the EPSB renders this decision, the unit shall maintain its accredited
15 status, but shall satisfy conditions by meeting previously unmet standards. EPSB shall
16 require submission of documentation that addresses the unmet standard or standards within
17 six (6) months of the decision to accredit with conditions, or shall schedule a visit focused on
18 the unmet standard or standards within two (2) years of the semester that the accreditation
19 with conditions decision was granted. If the EPSB decides to require submission of
20 documentation, the institution may choose to waive that option in favor of the focused visit
21 within two (2) years. Following the focused visit, the EPSB shall decide to:

22 a. Continue accreditation; or

23 b. Revoke accreditation.

Agenda Book

1 2. If the EPSB renders the decision to continue accreditation, the next on-site visit shall be
2 scheduled for seven (7) [~~five (5)~~] years following the semester in which the continuing
3 accreditation visit occurred.

4 (c) Accreditation with probation.

5 1. This accreditation decision indicates that the unit has not met one (1) or more of the
6 NCATE standards and has pervasive problems that limit its capacity to offer quality
7 programs that adequately prepare candidates. As a result of the continuing accreditation
8 review, the EPSB has determined that areas for improvement with respect to standards may
9 place an institution's accreditation in jeopardy if left uncorrected. The institution shall
10 schedule an on-site visit within two (2) years of the semester in which the probationary
11 decision was rendered. This visit shall mirror the process for first accreditation. The unit as
12 part of this visit shall address all NCATE standards in effect at the time of the probationary
13 review at the two (2) year point. Following the on-site review, the EPSB shall decide to:

14 a. Continue accreditation; or

15 b. Revoke accreditation.

16 2. If accreditation is continued, the next on-site visit shall be scheduled for five (5) years after
17 the semester of the probationary visit.

18 (d) Revocation of accreditation. Following a comprehensive site visit that occurs as a result
19 of an EPSB decision to accredit with probation or to accredit with conditions, this
20 accreditation decision indicates that the unit does not meet one (1) or more of the NCATE
21 standards, and has pervasive problems that limit its capacity to offer quality programs that
22 adequately prepare candidates. Accreditation may also be revoked if the unit:

23 1. No longer meets preconditions to accreditation, such as loss of state approval or regional
24 accreditation;

Agenda Book

- 1 2. Misrepresents its [†] accreditation status to the public;
- 2 3. Falsely reports data or plagiarized information submitted for accreditation purposes; or
- 3 4. Fails to submit annual reports or other documents required for accreditation.
- 4 (5) Notification of EPSB action to revoke continuing accreditation or deny first accreditation,
- 5 including failure to remove conditions, shall include notice that:
- 6 (a) The institution shall inform students currently admitted to a certification or rank program
- 7 of the following:
- 8 1. A student recommended for certification or advancement in rank within the twelve (12)
- 9 months immediately following the denial or revocation of state accreditation and who applies
- 10 to the EPSB within the fifteen (15) months immediately following the denial or revocation of
- 11 state accreditation shall receive the certificate or advancement in rank; and
- 12 2. A student who does not meet the criteria established in subparagraph 1 of this paragraph
- 13 shall transfer to a state accredited education preparation unit in order to receive the certificate
- 14 or advancement in rank; and
- 15 (b) An institution for which the EPSB has denied or revoked accreditation shall seek state
- 16 accreditation through completion of the first accreditation process. The on-site accreditation
- 17 visit shall be scheduled by the EPSB no earlier than two (2) years following the EPSB action
- 18 to revoke or deny state accreditation.
- 19 Section 20. Program Approval Action Outside the First or Regular Continuing Accreditation
- 20 Cycle. (1) Approval of a program shall be through the program process established in Section
- 21 11 of this administrative regulation except that a new program not submitted during the
- 22 regular accreditation cycle or a program substantially revised since submission during the
- 23 accreditation process shall be submitted for approval by the EPSB prior to admission of a
- 24 student to the program.

Agenda Book

1 (2) For a new or substantially revised program, the EPSB shall consider a recommendation
2 by staff, including review by the Continuous Assessment Review Committee, Content
3 Program Review Committee and the Reading Committee.

4 (3) A recommendation made pursuant to subsection (2) of this section shall be presented to
5 the full EPSB.

6 (4) Program approval decision options shall be:

7 (a) Approval, with the next review scheduled during the regular accreditation cycle unless a
8 substantial revision is made;

9 (b) Approval with conditions, with a maximum of one (1) year probationary extension for
10 correction of a specified problem to be documented through written materials or through an
11 on-site visit. At the end of the extension, the EPSB shall decide that the documentation
12 supports:

13 1. Approval; or

14 2. Denial of approval; or

15 (c) Denial of approval, indicating that a serious problem exists which jeopardizes the quality
16 of preparation of school personnel.

17 (5) The EPSB shall order review of a program if it has cause to believe that the quality of
18 preparation is seriously jeopardized. The review shall be conducted under the criteria and
19 procedures established in the EPSB "Emergency Review of Certification Programs
20 Procedure " policy incorporated by reference. The on-site review shall be conducted by
21 EPSB staff and a Board of Examiners team. The review shall result in a report to which the
22 institution may respond. The review report and institutional response shall be used by the
23 Executive Director of the EPSB [~~Accreditation Audit Committee~~] as the basis for a
24 recommendation to the full EPSB for:

Agenda Book

1 (a) Approval;

2 (b) Approval with conditions; or

3 (c) Denial of approval for the program.

4 (6) If the EPSB denies approval of a program, the institution shall notify each student

5 currently admitted to that program of the EPSB action. The notice shall include the following

6 information:

7 (a) A student recommended for certification or advancement in rank within the twelve (12)

8 months immediately following the denial of state approval and who applies to the EPSB

9 within the fifteen (15) months immediately following the denial of state approval shall

10 receive the certification or advancement in rank; and

11 (b) A student who does not meet the criteria established in paragraph (a) of this subsection

12 shall transfer to a state approved program in order to receive the certificate or advancement

13 in rank.

14 Section 21. Public Disclosure. (1) After a unit and program approval decision becomes final,

15 the EPSB shall prepare official notice of the action. The disclosure notice shall include the

16 essential information provided in the official letter to the institution, including the decision

17 on accreditation, program approval, standards not met, program areas for improvement, and

18 dates of official action.

19 (2) The public disclosure shall be entered into the minutes of the board for the meeting in

20 which the official action was taken by the EPSB.

21 (3) Thirty (30) days after the institution has received official notification of EPSB action, the

22 EPSB shall on request provide a copy of the public disclosure notice to the Kentucky

23 Education Association, the Council on Postsecondary Education, the Association of

24 Independent Kentucky Colleges and Universities or other organizations or individuals.

Agenda Book

1 Section 22. Appeals Process. (1) If an institution seeks appeal of a decision, the institution
2 shall appeal within thirty (30) days of receipt of the EPSB official notification. An institution
3 shall appeal on the grounds that:

4 (a) A prescribed standard was disregarded;

5 (b) A state procedure was not followed; or

6 (c) Evidence of compliance in place at the time of the review and favorable to the institution
7 was not considered.

8 (2) An ad hoc appeals board of no fewer than three (3) members shall be appointed by the
9 EPSB chair from members of the Board of Examiners who have not had involvement with
10 the team visit or a conflict of interest regarding the institution. The ad hoc committee shall
11 recommend action on the appeal to the EPSB.

12 (3) The consideration of the appeal shall be in accordance with KRS Chapter 13B.

13 Section 23. Approval of Alternative Route to Certification Programs. (1) Alternative route
14 programs authorized under KRS 161.028(1)(s) or (t) shall adhere to the educator preparation
15 unit accreditation and program approval processes established in this administrative
16 regulation and in the EPSB policy and procedure entitled "Approval of Alternative Route to
17 Certification Program Offered Under KRS 161.028 " as a condition of offering an educator
18 certification program or program leading to a rank change.

19 (2) The EPSB may waive any section, or part thereof, of this administrative regulation that
20 the EPSB determines is unduly restrictive to the development and implementation of the
21 alternative route program.

22 Section 24. In compliance with the Federal Title II Report Card State Guidelines established
23 in 20 U.S.C. 1027 and 1028, the EPSB shall identify an educator preparation unit as:

24 (1) "At-risk of low performing" if an educator preparation program has received a:

Agenda Book

- 1 (a) State accreditation rating of "provisional";
- 2 (b) State accreditation rating of "accreditation with conditions"; or

- 12 the educator preparation unit.
- 13 (b) The Quality Performance Index shall be a calculation of three (3) separate performance

Action Item, Waiver B

Action Item:

Request to waive regulation 16 KAR 3:040 pertaining to Teaching Experience for Director of Special Education Certificate

Applicable Statute or Regulation:

16 KAR 3:040, Section 2(b.)

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Issue:

Should the Education Professional Standards Board waive the regulation pertaining to the minimum one year of exceptional child classroom experience for Director of Special Education certification in lieu of related educational experience?

Background:

Ms. Tracy Dunn is requesting a waiver of the one year of exceptional child teaching experience that is required as a prerequisite for adding Director of Special Education to her certifications. She holds a variety of teaching and administrative certificates and has the three years of classroom teaching experience required by the regulation. However, Ms. Dunn does not have the one year of teaching experience with exceptional children. Ms. Dunn requests that the Education Professional Standards Board consider her related education experiences (see Under Separate Cover) with exceptional child programs in lieu of the one year of exceptional child teaching experience.

Ms. Dunn is currently completing the necessary coursework and assessments needed for special education teaching certification through Northern Kentucky University (NKU).

Alternative Actions:

1. Approve the waiver request.
2. Do not approve the waiver request.

EDUCATION PROFESSIONAL STANDARDS BOARD

STAFF NOTE

Action Item, Waiver E

Action Item:

Request by Ms. Melissa Lemerand to waive regulation 16 KAR 6:010 pertaining to Praxis II Principles of Learning & Teaching: Grades K–6 (0522) and Elementary Education: Content Knowledge (0014) and/or Principles of Learning & Teaching: Grades 5–9 (0523), Middle School English, Language Arts (0049), and Middle School Science (0439).

Applicable Statute and Regulation:

KRS 161.028

16 KAR 6:010

KRS 161.030

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Issue:

Should the Education Professional Standards Board waive the regulation pertaining to Kentucky assessment requirements for Elementary (P–5) certification and/or Middle School English and Science certification in lieu of the Illinois Certification Testing System (ICTS) tests, 102 Assessment of Professional Teaching and 110 Elementary/Middle Grades?

Background:

Melissa Lemerand is seeking Elementary (P–5) and/or Middle School English and Science certification. She has completed and passed the following Illinois teacher certification tests:

Test	Test Date	Results
(ICTS) 102 Assessment of Professional Teaching	04-30-05	Passed (254)
(ICTS) 110 Elementary/Middle Grades	04-30-05	Passed (248)

Kentucky requires the following Praxis II tests for Elementary (P–5) certification:

1. Principles of Learning & Teaching: Grades K–6 (0522)
2. Elementary Education: Content Knowledge (0014)

Kentucky requires the following Praxis II tests for middle school English and science certification:

Agenda Book

1. Principles of Learning & Teaching: Grades 5–9 (0523)
2. Middle School English Language Arts (0049)
3. Middle School Science (0439)

The results of staff's review of the test specifications are provided below:

1. The ICTS 102 Assessment of Professional Teaching test is designed to assess a prospective teacher's pedagogical knowledge. The test includes categories that are nearly identical to the Praxis II (0522), as well as additional subcategories. Therefore, it appears that the pedagogical constructs of the 102 Assessment of Professional Teaching equal or exceed those within the Praxis II (0522).
2. The ICTS 110 Elementary/Middle Grades test includes the same content categories and some additional to those in (0014).
3. The ICTS 110 Elementary/Middle Grades test is a multiple-choice test designed to assess a prospective teacher's knowledge of specific English content. The ICTS test specifications do not include the same content categories as (0049). The Praxis II (0049) consists of 90 multiple-choice questions and two constructed-response questions (short answer essay). The multiple-choice section is designed to assess the prospective teacher's knowledge of English content (literature, development and use of English language, composition, and rhetoric). The constructed-response section is designed to assess the prospective teacher's ability to interpret and/or discuss an approach of interpreting literary or nonfiction text and to discuss rhetorical elements of a piece of writing.
4. Based on a review of the ICTS test specifications and study guide, the ICTS 110 Elementary/Middle Grades test is a multiple-choice test designed to assess a prospective teacher's knowledge of specific Science content. The ICTS test specifications do not include the same content categories as (0439). Based on the Praxis II Test at a Glance documents, test 0439 consists of 90 multiple-choice questions and three constructed-response questions (short answer essay). The multiple-choice section is designed to assess the prospective teacher's knowledge of science content (scientific methodology, techniques, history; basic principles; physical sciences; life sciences; earth/space sciences; technology, and society). The constructed-response section is designed to assess the prospective teacher's ability to use and analyze critical concepts in science and to integrate knowledge from science, technology, and society.

Ms. Lemarand's request (and other related materials), transcripts, and certification information are included in the Under Separate Cover section.

Alternative Actions:

1. Waive the regulation pertaining to assessments for Elementary (P-5) Certification, Praxis Principles of Learning & Teaching (0522) and Elementary Education: Content Knowledge (0014) and accept ICTS (102) Assessment of Professional Teaching and ICTS (110) elementary/middle grades in lieu thereof. Do not waive the regulation pertaining to the assessment for middle school English and science content.

Agenda Book

2. Waive the regulation pertaining to the assessments for Elementary (P-5) Certification and Middle School English and Science, Principles of Learning & Teaching: Grades K-6 (0522), Middle School English Language Arts (0049), and English Language, Literature and Composition: Essays (0042) and accept English Language, Literature, and Composition: Pedagogy (0043) in lieu thereof.
3. Do not waive the regulation pertaining to the assessments for Elementary (P-5) Certification or Middle School English and Science, Principles of Learning & Teaching: Grades K-6 (0522), Middle School English Language Arts (0049), and English Language, Literature and Composition: Essays (0042), and do not accept English Language, Literature, and Composition: Pedagogy (0043) in lieu thereof.

Staff Recommendation:

Alternative Action 1

Rationale:

Based on the ICTS 102 and 110 test specifications and study guides and the Praxis II Test at a Glance documents:

1. As it pertains to Elementary (P-5) Certification, the ICTC 102 contains as much as or even more content for assessing pedagogical knowledge than the Praxis II (0522).
2. Although the detailed specifications for the ICTS 110 elementary/middle grades test do not line up word-for-word with the Praxis II (0014), the constructs of the ICTS 110 appear to equal or exceed those within the Praxis (0014).
3. As it pertains to middle school English and science, the ICTS 110 elementary/middle grades test measures different facets of a prospective English and/or science teacher than does the Praxis II (0049 and/or 0439). Therefore, the ICTS 110 is not an acceptable substitute for tests 0049 or 0439.

Action Item, Waiver H

Action Item:

Request by Dr. Lucian Yates, III to waive regulation 16 KAR 5:040 pertaining to cooperating teacher eligibility requirements

Applicable Statutes and Regulation:

KRS 161.028

16 KAR 5:040, Section 2 (b)

Applicable Goal:

Goal III: A properly credentialed person shall staff every professional position in Kentucky's public schools.

Issue:

Should the Education Professional Standards Board waive of the regulation pertaining to cooperating teacher eligibility requirements?

Background:

Dr. Lucian Yates, III, Chair, School of Education, Kentucky State University (KSU), is requesting on behalf of Mr. Daniel Hill, a waiver of 16 KAR 5:040, Section 2 (b) which requires that cooperating teachers have attained a Rank II. This request is for spring 2006.

Physical education majors at KSU are required to complete dual student teaching placements of a half semester at the elementary level and a half semester at either the middle or secondary level. Because KSU has five physical education majors who are completing student teaching this semester, it has been difficult to provide cooperating teachers that meet all requirements of the regulation. Mr. Hill, a National Board Certified Teacher, is currently teaching at Collins Lane Elementary in the Franklin County school district. He has taught for six years and is highly recommended by his principal. He has completed 24 credit hours toward his Masters degree and he plans to finish it in December 2006. He meets all other requirements of the regulation.

A copy of Dr. Yates' letter and other supportive documentation are included in the Under Separate Cover section.

Alternative Actions:

1. Approve the waiver request
2. Deny the waiver request

Admission to student teaching shall include a formal application procedure for each teacher candidate.
